

## Northampton Archery Club

Outdoor Season 2014

### Target Day Final Standings

To qualify for the final rankings archers need to have shot in 3 of the 4 designated Target Days over the outdoor season. 17 archers succeeded in this, and to compare each archer's performance over the varying rounds and distances posed a challenge. However the solution was fairly simple using the handicap system. Each score was awarded a handicap according to the handicap tables. In this way it is possible to compare archers shooting different distances and rounds.

We simply used an archer's best three handicap ratings, added them together and divided by three. The results are shown below – the final handicap figure being in brackets.
