Rule Summary

Shot out of Class

CR is either the Club Record on 20/07/2019, the first round date, or the highest record scored for his / her round / age / bow / gender in a Sidney Cato series shoot from a previous year, whichever is highest.

New Club Record

In circumstances where there is no Club Record the highest score for his / her round / age / bow / gender scored for first time in the series will become the Club Record.

Best Two Rounds

All new club records achieved in the Sidney Cato series will automatically be added to the Club Record Master sheet on NAC website at series end.

The result per round is determined as a percentage of your score compared to Club Record:

$$\% = \frac{\text{Your Score}}{\text{CR}} \times 100$$

Over the series of rounds the best two scores for each archer are added together giving a total score as a percentage that are used to rank archers regardless of bow types.

Trophies will be awarded for Senior Gent, Senior Female, Junior Gent and Junior Female with the highest score. To qualify archers must shoot their correct distance for their gender / age, see table from rule 308.
